Contents

Architectural plans and project files of Dennis Jones, working for a succession of practices on projects for alterations and enhancements to various of the colleges of the University of Durham: Grey, St Mary's, Trevelyan and especially University College at Durham Castle.

Dennis Jones

Dennis Jones (Dip Arch, RIBA) attended the School of Architecture at Kings College in the 1950s, working in private practice in Newcastle after graduating. After spending some time in Vancouver he returned to live in Durham in 1974, becoming a partner in a practice with offices in Sunderland and Teesside (Samson Jones & Associates (c.1978), Samson Jones & Associates (c.1980), Blackbell Rooker Partnership (c.1983), Rooker Samson & Jones (c.1990), Rooker Stringer & Jones (c.1992), and Stringer & Jones (c.1995) of Stainton, Middlesbrough). His work has largely focused on the conservation of historic buildings, which resulted in him holding a position as a Commissioned Architect within English Heritage whereby he monitored grant aided projects. Latterly, he worked as a consultant on projects in Durham and North Yorkshire, including conservation work on Co Durham churches and on Durham and Brancepeth Castles.

Accession details

The plans were given by the owner in March 2009, Acc No Misc.2008/9:87; the project files followed in January 2013, Acc No Misc.2012/13:37.

Arrangement

The donor's detailed arrangement and numbering has been maintained.

1. Plans
2. Project files

Conditions of access

Open for consultation.

Copyright and copying

Permission to make any published use of material from the collection must be sought in advance from the Sub-Librarian, Special Collections (e-mail PG.Library@durham.ac.uk) and, where appropriate, from the copyright owner. The Library will assist where possible with identifying copyright owners, but responsibility for ensuring copyright clearance rests with the user of the material

Appraisal

Occasional duplicates have been weeded.

Accruals

Further accruals of other Co Durham work, also photographs and some correspondence, are anticipated once the donor has sorted them.

Finding aids

DJP 1/A1 is the donor's own listing but not all items listed there are present and not everything has been listed there.

Form of citation

The form of citation should use the code GB-0033-DJP, or the collection name Dennis Jones Papers, followed by the *reference number*

To order items in the searchroom, use the collection reference code(s), derived by removing the repository code (GB-0033-), followed by the reference number. Citing the section of the finding aid is useful.

Processing

Sorted and listed by the donor. Checked and numbered by Alison Montgomery who converted the typescript list to Word. All checked by Michael Stansfield and converted to XML in November 2010.
