Contents

College records reflect all aspects of the college's life and may include minutes of its governing body/council and other committees, registers and files of its students, administrative and financial papers of its officers such as the master/principal and bursar (including covering maintenance of the buildings), also minutes, accounts, photographs and ephemera of the running of the dining halls and chapels, of the common rooms (senior, middle and junior), and of the student sports clubs and societies, with also on occasion papers of some of the senior and/or junior members, and some artefacts, principally occasional items of clothing such as ties, blazers, tee-shirts or specific college memorabilia.

Administrative History

In 1895 the University Senate agreed to the granting of degrees to women and this resulted in a supplementary charter being granted. It was in 1896 that the first female undergraduates appeared in Durham and 1897 saw the establishment of scholarships dedicated to women. At this point, there was not a dedicated University building to accommodate these women. As a result, these early students lived with relations or a 'friend approved by Senate'. Discussions regarding the provision of a hostel for women students were undertaken and in February 1899 the University made 33 Claypath available as a Women's Hostel. In May 1899 Miss Laura Roberts was appointed principal before the first students (six in number) were admitted in the autumn.

Miss Elizabeth Robinson was appointed as Roberts' successor and played an instrumental role in the Hostel's move to Abbey House on Palace Green in 1901, which was followed by the addition of Abbey Cottage in 1903. Women were accepted to matriculation (full membership of the University) in 1913.

During the First World War life in the Hostel became increasingly cramped as numbers increased, whilst expansion of the building was not possible during this time. The women of the Hostel played an increasingly important part of University life due to men being absent as a consequence of the war. Following 21 years as a Hostel the status of 'College' was granted in 1919, dedicated to St Mary. Also in 1919, the College moved to a much larger building at 8 The College. The need for expanded accommodation was still obvious and the University Council established a committee to look into this in 1934. By 1935 Mr Vincent Harris had prepared a design for a new college building for St Mary's, but at this time the project did not proceed.

The war brought rationing and the fitting of cellars to the college for use in air raids. Members of the college volunteered to help with fire watch duties at the cathedral, organised youth clubs, factory clubs, helped in the Citizens' Advice Bureau and organised children's play centres. By 1945 numbers had increased to 80 students. By 1948 there were 400 applicants

for 27 spaces in the college building. This provided the impetus behind approval for a new college building being granted.

The current St Mary's College Fergusson Building was begun in 1947 with Princess Elizabeth visiting in October of that year to lay the foundation stone. The new building was sized for 100 students, with the first block being ready in Michaelmas Term 1951. By the end of the 1952 summer vacation, the move into the new building was completed. Miss Williamson arrived as principal in 1955 and early in her tenure in November 1956 the Queen Mother paid an informal visit to the College. 1957 saw the new coat of arms granted approval by the Court of Heralds. The continued success of the College in attracting applicants saw 1000 apply in 1960 and the numbers of students in college swelled to 139 in residence and a further 14 in lodgings. A new building, the Williamson Building, was completed in 1962 and was especially designed to allow for a continued unobstructed view of the cathedral from the Fergusson building. May 1964 saw the consecration of the new chapel in the roof of the North East Wing.

The intention of keeping student numbers accommodated in College at 280 was proving difficult; in fact numbers reached 323 in 1969 resulting in the college acquiring the bottom flat of 45 South Street and a house on the Avenue. The internal structure of college also changed with the basement of the Fergusson building being converted into sewing rooms, rooms for tutors and in 1970, the conversion of the old chapel space into a bar. The houses of West Court were built at this time for the use of tutors.

Miss Joan Kenworthy's tenure as principal from 1977 encompassed further changes to the physical appearance of College. 1991 saw the opening of the Teikyo University buildings in the South East corner of St Mary's College land. This development also included the construction of staff flats to the south of the main driveway to the west of West Court. Further building extensions were completed throughout the 1990s to improve the facilities for students. This period also saw an expansion of JCR involvement in all college activities, the development of fellowships and an emphasis on bursaries to support student activities.

Mary's celebrated a centenary in 1999 and looked forward to a new century with the big question for the college of whether to remain single sex. After several years of debates and consultation the decision was finally taken to admit male undergraduates in the Michaelmas term of 2005. This process of integration has proceeded smoothly until an approximate 50/50 male to female ratio in 2020. Other developments included the conversion of the Mews block into dedicated female only accommodation (now named the Shepherd Wing) and the redevelopment of the Williamson building through a £1.5 million upgrade. In 2007 the College appointed its first male principal, Professor Philip Gilmartin, followed by the first male JCR President, James Liddell in 2009. In an echo of the past and a reminder that female education, so long now an established right in the UK, remains contentious in other lands, October 2010 witnessed the arrival of Afghan female scholars to take up residence in the Shepherd Wing as part of the Chancellor's initiative in this area. This exciting initiative maintained Mary's historic role at the forefront of women's education whilst also enhancing the college's community.

Professor Gilmartin departed for the University of East Anglia in August 2011 following four years which encompassed continual change, including a large expansion of arts activities, a reinvigoration of the SCR, and re-expressions of the college's identity, for example, through commissioning Mary's own wine and port, and the establishment of a sculpture park. In 2015 the Shepherd Wing was converted to largely returner and postgraduate accommodation, with the female only accommodation provision being relocated to the newly designated 'Boughton Wing', named in honour of Gillian Boughton, former Vice

Principal and Senior Tutor of St Mary's College. The new principal from 2011, Professor Hackett, oversaw an expansion in the range and quality of JCR clubs, societies, events and extra-curricular opportunities available to Mary's students of all levels and backgrounds, as well as strengthening of the ties between the college and its alumni community. In fostering a distinctly open and collaborative style, Professor Hackett reinforced the college's culture of inclusivity, equality, integrity, respect, wellbeing, and achievement. In 2017 the College took the decision to end the use of shared student bedrooms, meaning that all Mary's students could benefit from single private rooms. This brought the College in line with the majority of other UK University accommodation offers and modern student expectations.

Accession details

Deposited by the college February 2011 (Acc No Misc.2010/11:62).

Additional material received from the college: September 2011 (Acc No Misc.2011/12:9).

Previous custodial history

Always held in the college, except for occasional items donated by usually college alumni.

Arrangement

College records are arranged as follows:

A Foundation

B Governance

C Administration

D Academic

E Clubs, Sports, Associations

F Photographs

G Publications and Ephemera

H Deposited/donated collections

I Artefacts

J Associated Trusts

Conditions of access

There is restricted access to administrative records less than 30 years old, with some further restrictions, generally as noted, on records less than 80 years old where the Data Protection Act applies.

Copyright and copying

Permission to make any published use of material from the collection must be sought in advance from the Head of Collections (email pg.library@durham.ac.uk) and, where appropriate, from the copyright owner. The Library will assist where possible with identifying copyright owners, but responsibility for ensuring copyright clearance rests with the user of the material

Appraisal

Some accessions are appraised on site before transfer, others are appraised when received at Palace Green Library. Clean duplicates are generally removed.

Accruals

Continuous further accruals are anticipated. In April 2004, a retention schedule and other records management procedures were developed for the university's records to facilitate the regular transfer of records from the university's departments and offices to the archive. This draft retention schedule was developed further on the appointment of the first university records manager in August 2006, revised in 2019.

Form of citation

The form of citation should use the code GB-0033-UND, or the collection name Durham University Archive, followed by the *reference number*.

To order items in the searchroom, use the collection reference code(s), derived by removing the repository code (GB-0033-), followed by the reference number. Citing the section of the finding aid is useful.

UND/F8/E4/D1 1931/32

Report, comprising the annual report of the principal, lists of past and present students with subjects, degrees, occupations etc, and society accounts. This became a *Newsletter* in 1941 with less comprehensive details of former students, which became comprehensive again in 1945. From 1989 it was just headed *St Mary's College Society*. In 1998 it was titled *News and Issue 1*, with the following year *Newsletter* being the title. The format has remained similar throughout, though the college news has come from an increasing variety of college and student officers, and the news of old members has become less comprehensive over time. Issues are present for every year, with 1974's being titled *St Mary's College 1899-1974 An account of the Women's Hostel 1899-1920 and some impressions of later college life*, edited by Marilyn Hird, later expanded and republished as *Doves and Dons* in 1982.

1931/32 to 1941 are photocopies.
